

THE INSOMNIAC

CUSTOM ENGINE

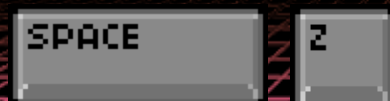

Insomnia

A game made in November of 2017 by Mirak and Wilson "Hamster" Saunders for the Lovecraft's Commonplace Book game jam in the TIG Source forums (now defunct). In the jam we got an entry of Lovecraft's idea journal that talked about a man who would not or could not sleep, using drugs and other things to keep himself awake. This was the result.

Controls

Move and Hold on Ledge
(Hold)

Jump

Exit Game

Thank you for Playing!
