Investigation Records I

This artbook leaks important confidential information of a strange phenomenon we cannot fathom to understand.

The incident of unusual deaths surfacing all across London has been a constant mystery that eludes us to this day. People have been passing out without rhyme or reason. And the numbers rise to over the hundreds of thousands as of the recording of this writing.

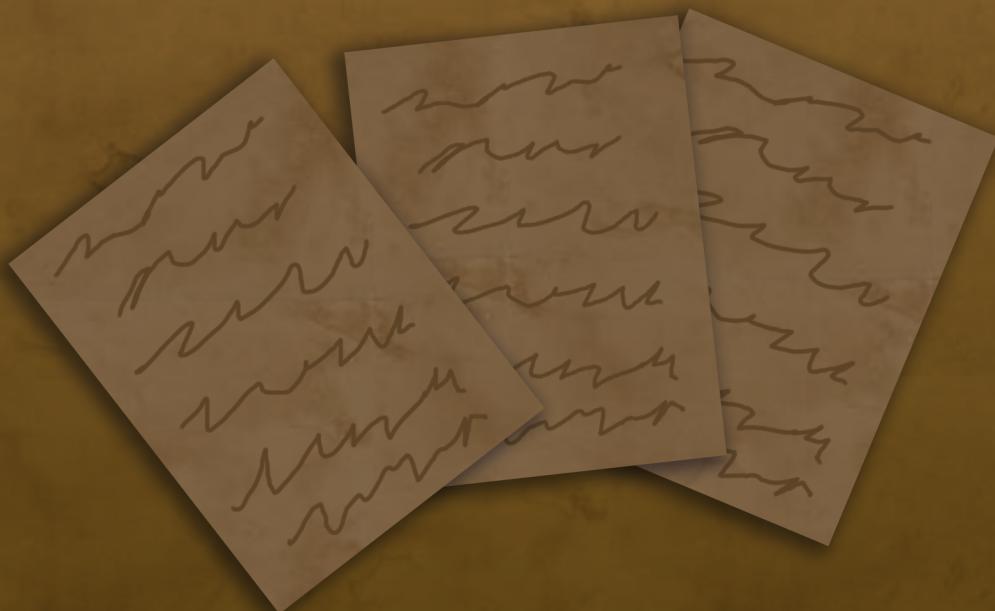

The deaths were diagnosed to be a frontal and temporal lobe failure. In addition, brain analysis from one of the victims suggests that their amygdala, hippocampus and prefrontal cortex have somehow ruptured, causing the victims to fall into a deathly comatose state.

Officials have recorded that this incident may be a possible viral infection. However, it does not seem to be the case.

There are no signs of infection or entry point and it seems to be happening to random civilians at random areas of the district.

There is one key similarity in the autopsy. That all the victims have, at one point, been marked in their stomach. Each one inconsistent with one another but all of them have marks for some unfathomable reason.

Whatever the cause this may be, it is certainly not a normal case. Perhaps the supernatural may be upon us.

Investigation Records 11

Their eyes invoke a sense of terror that never fade. As if they saw something incredibly frightening, though the cause was and still is unknown.

This continued within the week or so until all of a sudden, the attacks and number of victims stopped rising.

This became one of the greatest enigmas of the world.

Recorded into history as the Brain Damage Phenomenon, eventually the incident is forgotten from most of everyone's minds.

Though in reality, the truth is certainly stranger than one would ever expect or imagine.

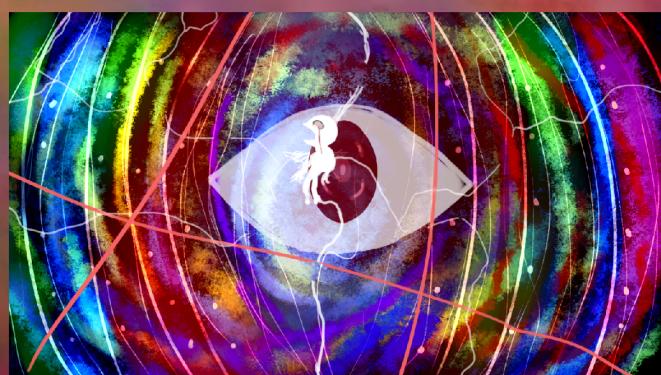

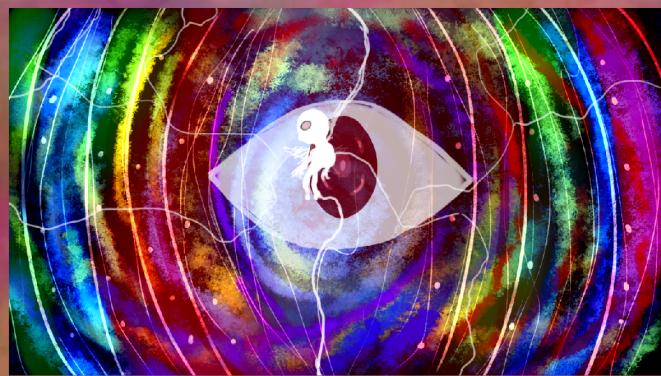

Because the incident is not exclusive to London. An extensive investigation reveals that similar cases surface in New York.

With the last 2 investigators who attempted to pursue the lead ended up being sent into an asylum due to mental manic episodes and insanity.

AS THE INVESTIGATION LEADS NOWHERE AND THE NEW LEADS ARE OUT OF REACH, INVESTIGATIONS WILL HAVE TO BE TERMINATED AND CONSIDERED UNSOLVED UNTIL NEW LEADS POPPED UP.
